The Power of a Small World™

MEMSCAP UNVEILS ITS NEW VISUAL IDENTITY AND ITS NEW WEB SITE

Grenoble, France and Durham, North Carolina, July 25, 2006- MEMSCAP (Euronext: MEMS), the leading provider of innovative solutions based on MEMS (micro-electro-mechanical systems) technology), unveils today its new web site based on its new visual identity.

A silver structure that goes growing, inspired from one of MEMSCAP technology brick, shall from now on embody the Group new identity. The Company needed a new graphical chart and visual identity to correspond to and reflect what it now really is.

This silver spiral does not contradict MEMSCAP previous identity, but is fully integrated in the ongoing growth and progression of the Group, as MEMSCAP strength today is based on the solid foundations of the past and the efforts of the present and the future.

Today MEMSCAP has entered a new era : a healthy financial structure that will be reinforced by the finalisation of the sale of the industrial site annulling the Group financial liabilities; a fully growing business; MEMSCAP technology superiority, its intellectual property portfolio and its team expertise, that bring daily to MEMSCAP new customers and the integration of its products into successful applications.

This is why MEMSCAP has chosen to work on a symbol that is part of its history, and hopes that this silver symbol will accompany the Group in the growth and progression of its future challenges, towards a small world of infinite possibilities.

About MEMSCAP

MEMSCAP is the leading provider of innovative micro-electro-mechanical systems (MEMS)-based solutions. MEMSCAP standard and custom products and solutions include components, component designs (IP), manufacturing and related services. MEMSCAP customers include Fortune 500 businesses, major research institutes and universities. The company's shares are traded on the Eurolist of Euronext Paris S.A (ISIN: FR0010298620-MEMS), where MEMSCAP belongs to the Next Economy segment.
